Rome, February, 28.

THE 23d the Pope having caus'd all the Parish Priests of this City to appear before him in the Vatican, made a pathetic Discourse to them, in which after having admonish'd them in general Terms to do their Duty, he charg'd them, in particular, not only to refuse Leave to their Parishioners to eat Fish during the approaching Lent, without a lawful Cause, but to give in to the Cardinal Vicegerent the Names of all those who should lead a disorderly Life during that Holy Time. On the 25th being Ashwednesday he went, in Cavalcade, the sacred College accompanying him, to the Church of St. Sabina, where he heard Mass, and afterwards with his own Hands distributed the Ashes, to a vast Crowd of People of all Conditions. Having t'other Day receiv'd Advice of the Recovery of the King of Portugal from his Indisposition, he sent 100 Weight of Wax Candles to the Church of St. Anthony, belonging to the Portuguese Nation, to illuminate the Altar on which the Host was expos'd, and went thither himself to return solemn Thanks to Heaven for restoring his said Portuguese Majesty to his Health. Some People have remark'd on this Occasion, that this is the first Pope who has vouchsaf'd to visit any Church in Rome belonging to a Forreign Nation, on any Account whatever, this Hundred Years. The Duke d' Uzeda, Ambassador of Spain, having t'other Day, for the Diversion of his Lady, made a Match at Boxing between his own Footmen and those of his Gentlemen, and the Fancy taking him to call one side K. Philip the V. th's Parry, and the other the Archduke Charles's Parry, it happen'd the former were so soundly maul'd, that the Duke could not refuse giving the Prize against them. Which has given Occasion to much Discourse here, and Pasquin has not been wanting to make his Descants upon it. Count Carandini having petition'd the Pope to permit him to continue in the Prison of the Inquisition, during the 7 Years Confinement he is condemn'd to, instead of being remov'd to the Castle of Perugia, his Holiness has granted his Request. The Janenists begin to stir here again: They have petition'd the Pope to cause some Articles of their Doctrine to be examin'd, and his Holiness has refer'd them to the Holy Office.

Rome, March 7. The Envoy of Lorrain endeavours to justify the Conduct of the Duke his Master in the Affair in Dispute between Him and this Court; but whether that will forward the Accommodation he is come to Negotiate, is yet uncertain. The Differences between this Court and that of Naples; as also those between this Court and that of Savoy, are yet in no likelihood of being made up soon. The Pope has order'd the Number to be taken of all the Subjects of the Ecclesiastical State, of each Sex, Age, and Condition. Signior Pallavicini, who is newly made Provo-Notary of the Holy See, is preparing to set out from hence for the Court of France, to carry the blessed Swadling Clothes to the Duke of Brittany; 'tis said this Journey will cost him

50000 Crowns, he being resolv'd to have a splendid Equipage, and to make a great Figure. We have receiv'd Advice by two Expresses, That the Queen Dowager of Poland arriv'd the 3d of this Month at Bologna, and the 5th at Ferrara, whence she was to proceed on her Journey to Day. She has had great Honours paid to her in all Places belonging to the Pope through which she has passed. From Genoa they write, That the Prince d' Elbauf is gone from Milan to Casal, to pay a Visit to the Duke of Mantua; who talks of making the ensuing Campaign, and in Order to it has sent for his Tents and other Field Equipage from Mantua.

From the Amsterdam Gazette, March 24.

Amsterdam, March 24. Letters from Dreiden of the 18th of this Month, run thus; Notwithstanding the Report that was spread a few Days ago of the Swedes having invaded the Province of Lusatia, proves false; we are not without Apprehension they intend to break into that Province: For they continue to make frequent Motions on the Frontiers, and the King of Sweden has in Person taken a View of all the Posts on the River Oder, from Rawitz to Meseritz. We have Advice also, That a Detachment of 300 Swedish Horse are arriv'd in the Neighbourhood of Olmutz in Moravia, in an Opinion 'tis presum'd that King Augustus might design to pass that way to Cracow; but his Majesty being still here, that Contrivance is vain. All the Regiments of Foot and Horse of this Electorate, are almost compleat. Some Horses are wanting to Remount the latter, but will speedily be furnished. 'Tis talk'd all these Forces are to Rendezvous at Torgau the beginning of April, and that the King will go thither to take a Review of them. Some Advices from Warsaw told us the Swedes had attack'd the Monastery of Czeskokova Sword in Hand, and were repuls'd with the Loss of 150 Men; but the last Letters saying nothing of it, we suspend our Belief of it.

From the Amsterdam Gazette, March 27.

Letters from Poland of the 13th of this Month import, That the Swedes design to march towards the City of Cracow, and that they have sent Circular Letters throughout the Palatinate of Cracow, to order Provisions necessary for their Subsistence to be provided against their coming. The confederated Polish Troops that were at Bochnia and Places adjacent, are retir'd towards Lublin. Other confederated Polish Troops that were at Lowitz, had an Engagement the 10th Instant with a Body of 3000 Swedes; the Dispute was sharp and bloody on both sides, but the greatest Loss was on the side of the Poles.

London, March 28.

He also brings Advice, That the Gloucester, which came in Company with them, foundred in the Voyage near the Summer

The Hypochondriack Digestive POWDER, for Melancholly and Vapours. The great and miraculous Cures this Medicine has wrought (as appears by silvers Letters and Testifications) and the universal Reputation it has thereby gain'd, put the Author upon thinking it needless any further to publish it, but he lately hearing of its being counterfeited, and Reports industriously spread, that what is sold at Jacob's is not the right, oblig'd him (that the Publick may not be impos'd upon) to give this notice, that the true Medicine, of which such vast quantities have been there dispos'd of, is still (and never will be elsewhere) sold at Jacob's Coffee-house over against the Angel and Crown Tavern in Threadneedle-street near the Royal Exchange, Seal'd up with Directions, at 3 s. 6 d. the Paper, containing several Doses.
